[Mark as unread](#)**To:** ☐ Ryan Barth <rbarth@anchorqea.com>;

Yes- she is saying it needs to be it's own doc- not an appendix to the SAP.

Becky – I am currently reviewing your email about the QAPP comments and before getting much further I just want to confirm that your QA reviewer understands the attached Appendix I in the BODR includes a QAPP. Your email states “there is not a stand alone QAPP document that is formatted consistent with the guidance documents”. I have not had time to check the formatting but just wanted to make sure she even understood this “stand alone QAPP” exists. Talk to you 4pm.
